1. Executive Summary & Market Position

NexusMarket is a high-performance Digital E-Commerce and Asset Marketplace designed for global distribution of software products, AI models, developer SDKs, UI design kits, and Python automation scripts.

Featuring a catalog of **2,005 worldwide digital assets**, dual currency display (USD \$ and KES KSh), multi-payment gateway integration (M-Pesa STK Push, PayPal, Credit Card, Crypto), and server-side key encapsulation, NexusMarket offers a complete commercial solution.

2. Platform Architecture & Multi-Payment Integration

NexusMarket incorporates a hybrid client-server payment routing model ensuring maximum privacy and instant fund settlement.

Payment Gateway	Channel / Method	Settlement Destination	Security Model
M-Pesa Express	STK Push (Daraja 2.0 API)	Store Owner Paybill / Till Number	Server Encapsulated (server.py)
PayPal Express	One-Touch OAuth Checkout	Owner Email (onesmuskimtai9@gmail.com)	Client-Server Verified
Credit Card	Stripe Encrypted Token	Owner Linked Bank Account	PCI-DSS Compliant
Crypto / Web3	USDT TRC20 Wallet Address	Owner Crypto Wallet	Direct Blockchain Settlement

3. Catalog Scale & Performance Design

- 2,005 Curated Products:** Generated across 5 tech categories (AI Models, Developer SDKs, UI Kits, Python Scripts, SaaS Templates).
- High-Speed Pagination:** Displays 12 products per page for smooth 60fps browser rendering.
- Dual Currency Engine:** Real-time exchange rate calculation (1 USD = 130 KES).
- Shopping Cart & Wishlist:** LocalStorage state sync, tax calculation, and promo code support (NEXUS20 for 20% off).

4. Server-Side Security & Customer Privacy

- End-user customers interact with a clean storefront interface and ****never**** see sensitive API keys, consumer secrets, or store owner settings.
- Payment requests route through backend endpoint `/api/mpesa/stkpush` in `server.py`.

- Upon successful payment confirmation, the platform automatically generates a unique receipt reference and unlocks instant .ZIP file downloads.
